25 May 2017

Dear Ellie, Connie and Darcey,

Thank you for the letter which you sent to the Governors. At our meeting last night the Governors asked me to respond to your letter.

Plant Monitors:

The Governors think that taking turns to water the plants is a great idea. There is an ECO suggestion box in the library which you could put any ideas into. I'm sure that the ECO representatives in your class will also be keen to tell the ECO team and Mrs Drinkwater of your idea.

Outdoor Swimming Pool:

In this hot weather a swimming pool at school would be fantastic, unfortunately it would cost thousands and thousands of pounds to have one put onto the school site. It would also take many, many years to raise the money that is if the Mrs Baynes and the Governors were able to get planning permission. We are sorry to disappoint you but the Governors are unable to support this idea.

Sports and games equipment:

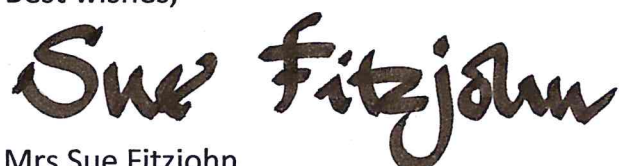

The Governors heard from Mrs Baynes last night that she and Mr Grant have already been planning for new games and sports equipment to make all PE really exciting. They are currently thinking of ordering a brand new PE shed for all the new sports and games equipment. The new sporting and games curriculum and activities for all the children will be ready for September.

Climbing Wall:

This will also be considered for the school and maybe something which the PTFA may be able to raise the money for as the Governors do not have enough money to buy one for the children. We will always support any events which are organised to raise money for a climbing wall and the special surface on which the wall has to be placed.

We were very pleased to hear from you and we hope that we have answered your questions. Enjoy your half term holiday.

Best wishes,

Mrs Sue Fitzjohn

On behalf of the Governors of Kempsey School
